Yarrow (keeps a couple together for 7 years & repels fear and harm)

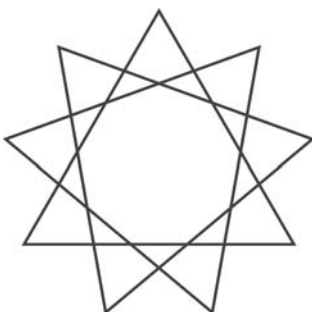

## Oil List:

Orange/Neroli (keeps you attractive to your lover)\*  
Clove (Drives away negativity & hostility & as an aphrodisiac)

## Directions:

Prepare your mold by stringing the wick through making sure you have a few inches of leftover so you can trim to the appropriate length. Mix all herbs together in a separate bowl or bag crushing all of them using a mortar and pestle or by other means until all herbs are of similar size. Heat the wax according to manufacturers directions. Add the dye as the wax is heated using small amounts until the desired color is reached. Using a wooden spoon, add the herbs to the heated wax making sure they are well blended. Add a few drops of the essential oils to the heated mixture. Be cautious! As the essential oils are powerful! Pour the completed mixture into your mold and ta-da! You have a Unity Candle!

Once the candle is dry, remove from the mold carefully. Inscribe the following symbol on the face of the candle. (Don't inscribe the text next to the star. The text next to the sigil is simply a description.) Also inscribe the two names of the united side by side, lady on the left. Adorn your candle with ribbons, flowers or beads or any items you see fit. You can also use darker dyed wax to fill your inscriptions!

## Nine Pointed Star

Made using three triangles.  
Symbolizes the three trinities:  
Maiden, Mother, Crone.  
Youth, Father, Wise Man.  
Mind, Body, Spirit.  
An ultimate symbol of unity.  
Also called the Star of the Muses.

*\*Neroli oil is very expensive. You may substitute a tablespoon of orange peel.*
